I2. Student to Faculty Ratio

Report the Fall 2023 ratio of full-time equivalent students (full-time plus 1/3 part time) to full-time equivalent instructional faculty (full time plus 1/3 part time). In the ratio calculations, exclude both faculty and students in stand-alone graduate or professional programs such as medicine, law, veterinary, dentistry, social work, business, or public health in which faculty teach virtually only graduate level students.

Do not count undergraduate or graduate student teaching assistants as faculty.

Fall 2023 Student to Faculty Ratio:	14	to	1
Ratio is based on number of students:	16899		
Ratio is based on number of faculty:	1167		

13. Undergraduate Class Size

In the table below, please report information about the size of classes and class sections offered in the Fall 2023 term.

Class Sections: A dass section is an organized course offered for credit, identified by discipline and number, meeting at a stated time or times in a dassroom or similar setting, and not a subsection such as a laboratory or discussion session. Undergraduate dass sections are defined as any sections in which at least one degree-seeking undergraduate student is enrolled for credit. Exclude distance learning dasses and noncredit dasses and individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings. Exclude students in independent study, ∞ -operative programs, internships, foreign language taped tutor sessions, practicums, and all students in one-on-one dasses. Each dass section should be counted only once and should not be duplicated because of course catalog cross-listings.

Class Subsections: A dass subsection includes any subsection of a course, such as laboratory, recitation, and discussion subsections that are supplementary in nature and are scheduled to meet separately from the lecture portion of the course. Undergraduate subsections are defined as any subsections of courses in which degree-seeking undergraduate students enrolled for credit. As above, exclude noncredit classes and individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings. Each class subsection should be counted only once and should not be duplicated because of cross-listings.

Using the above definitions, please report for each of the following class-size intervals the number of class sections and class subsections offered in Fall 2023. For example, a lecture class with 800 students who met at another time in 40 separate labs with 20 students should be

Number of class sections with undergraduates enrolled Undergraduate Class Sze (provide numbers)		Class Sections	Class Sub- Sections
	2-9	183	10
	10 - 19	793	46
	20 - 29	1010	98
	30 - 39	564	29
	40 - 49	87	0
	50 - 59	63	0
	100 +	4	0
	Total	2704	183
