

Blackboard Accessibility Tool

Turning Ally On and Off

Blackboard Ally

Blackboard Ally is an accessibility checker integrated with Blackboard. When an instructor uploads documents or images to Blackboard, Blackboard Ally automatically checks the content for accessibility issues. You can then review the results and make necessary changes to ensure your content is accessible to all users.

How to Turn On Blackboard Ally

For the Spring 2020 semester, you will need to contact the Blackboard Support team to request that Blackboard Ally be turned on for your course.

1. Log in to Blackboard as an administrator.
2. Create a service request.
3. Under Request Type select Employee > Blackboard > Blackboard Ally.
4. Take the following information to the request: Course ID and Section Number (i.e. ENGL 101 001).

How to Turn Off Blackboard Ally

If you would like to turn off Blackboard Ally for your course, you will need to contact the Blackboard Support team to request that Blackboard Ally be turned off for your course.
